Cultural Competence Committee:

Mission:

The Office of Minority Health and Health Equity is to establish, develop and promote a statewide implementation of policies, programs, and practices that increase health equity, including but not limited to, increased access to and quality of health care services for racial and ethnic minority populations. One representative from each county health department serves as a minority health liaison to assist the office in advancing health equity.

Vision:

Empower communities, organizations, and policy makers to uncover health differences rooted in race, ethnicity and vulnerable populations and give individuals and communities the opportunity to live happy, healthy, and productive lives.

Join the conversation on building a culturally competent community that celebrates our differences.

**Meetings are held quarterly @ 3:30pm.

Health Equity Plan Strategies

- ❖ Use a Health in all policies approach to advance HE.
- ❖ Use evidence-based models and best practices related to collaboration building community engagement and partnership.
- ❖ Use data driven analysis to identify geographically areas to prioritize interventions and policy implementation.
- ❖ Include a communication plan to support impact of the county HE Plan.
- ❖ Include a working infrastructure plan to support and enhance the resources needed to implement the HE Plan locally.
